Tuesday, 4<sup>th</sup> **JUNE 2019**

**TAWANNA Bangkok,**  
Surawong Road, Si Phraya, Bang Rak  
**Bangkok., THAILAND**

Register   
**NOW**

GUEST SPEAKERS :

Ms. Rachaneewan Khamman

Dr. Rawee Viriyatum

Mr. Roy Van Daatselaar

We are all here to ensure that Thailand once again becomes one of the top seafood producers Globally.

## MAIN OBJECTIVE :

This seminar will be organized and co-hosted by BVC-Thailand (Bureau Veritas Certification (Thailand)), BAP (Best Aquaculture Practices), and ASC (Aquaculture Stewardship Council). Attendees will learn how they can grow their market share in a social and environmentally responsible way. Also hear about the latest updates to some of the leading Global Seafood Sustainability Standards.

For more than a decade, Thailand's Seafood producers have encountered and overcome many negative factors including disease outbreaks, climate change, declining market share, reduced commodity pricing, and bad publicity. Some producers have given up while many of them still attempt to maintain their businesses and productivity. Global Seafood Sustainability Standards have become a key factor to their continued success and are a pathway to continuous improvement, access to new markets, and running more sustainable and environmentally responsible operations.

While at the conference attendees will have direct access to staff from two of the leading Global Seafood Sustainability Standards owners BAP and ASC, and a top certification accredited body and laboratory service provider BVC-Thailand. These three companies will be there to inform you on the latest updates and trends in sustainability, answer your questions about the different schemes, guide you in the right direction based on your particular needs, and support you along your journey towards a sustainable future.

## FACE-TO-FACE MEETING

Delegates are invited to join the face-to-face meetings with scheme owner representatives and BVC-Thailand. There will be run in parallel with the main sessions. Pre-booking via registration form is required and Time slot availability is limited, based on first come – first serve basis.

Delegates will receive an email from secretariat confirming their meeting times. These meetings will run for approximately 45 minutes each, allowing delegates to meet individually with Scheme owner and/or BVC-Thailand team in private meeting room.

Free of charge and coffee break will be serve by follow the main session schedule.

Please Pre-inform us if translation or facilitation is required.
